S6-RB04-Group1 Globe Protocol - Research Data

Bakker, Sebas S.

Huntjens, Jordi J.L.P.

Somers, Manoa M.

Tempelman, Mark M.J.

Checkpoint 2 First time peer feedback 16-04-2022

During this sprint, I mainly worked on updating the answers and creating access logs. I also was the scrum master of this sprint, where I helped the team with stand-ups and planning deliveries.

De afgelopen sprints heb ik veel mogen samenwerken met Mickey. Hij doet goed zijn best, is zeer gemotiveerd en hij is een hele gezellige en leuke teamgenoot om mee samen te mogen werken!

Always brings us back to the topics at hand, could focus on his spelling when writing code.

Hard worker, no complaints.

Did a lot of bug fixes for our general application. Also worked on the access log so a respondent can see all researchers. Great work.

Checkpoint 1 Sprint:1 28-03-2022

Tijdens deze sprint heb ik me gefocust op de Data-Import-Service, mijn afspraken waren klaar. Ik was tijdens deze sprint de scrum master.

Werkt goed mee in het team, is gemotiveerd, doet zijn best, komt zijn afspraken goed na en is tot nu toe een goede scrum master.

Did a great job as project manager. Kept us up to date with upcoming deadlines and open user stories.

Actively works towards sprint goals, is always on time, and isn't afraid to present.

Mickey works hard and works well with other people
